

- 3 -

The above amendment consists of adding reference numerals to subject matter depicted in the original figures and explanatory materials more clearly describing what is shown in the figures and /or described in the specification. Consequently, no new matter is added, and these changes should be entered into the record.

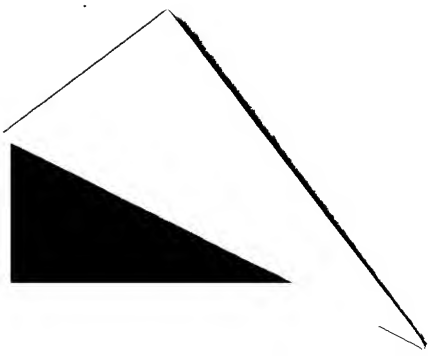

AMENDMENT TO DRAWINGS

In the Drawings

Attached hereto is replacement figure sheet for Figures 1, 1A, 2, and 3, which includes the changes, without markings, identified below. The header of the revised figure sheet includes the following information: (i) "Replacement Sheet", (ii) application number and (iii) date information.

Figure 1 and Figure 3 have been amended to show reference numeral "15", which denotes a fold axis, reference numeral "18" which denotes a tab; reference numeral "21", which denotes a free end of the tab 18; and reference numeral "19", which denotes tapered shoulders of a cut-out denoted by reference numeral "20". Each of these features was previously shown, but not labeled, in the original drawing, and described at page 3, lines 1-8. Consequently, no new matter is added, and this amendment should be entered into the record. Additionally, a blow-up of the cut-out portion 20 shown in Figure 1 is added as Figure 1A to more clearly show the differences in dimension of the tab 18.
